## Notes about the data in this report

- All data provided in this report is the data most recently available at time of production. Fatality data updated to the end of report month. A 6-month lag applies to hospitalised TAC claims data.
- Reporting of the hospitalised claims data is based on the claim acceptance date and excludes rejected claims and those involving interstate crashes.
- Reported data will have one extra day of exposure for leap years.
- Data is subject to revision as additional information about known accidents/claims is received, and as new accident/claim reports are received and processed.
- Crash locations for acute hospitalised claims are assigned to Local Government Areas based on the crash postcode recorded by Victoria Police. Crash locations for fatal crashes are coded exactly to a Local Government Area assigned by Victoria Police.
- Claimants refers to people injured in transport accidents who have an accepted claim with the TAC.
- Hospitalisation refers to all hospital admission that occurred within 7 days of accident.
